

*Somedays you look out into the waiting room and*

*you see one fidgety kid. And then you see his*

*identical twin brother, and his little sister too.*

*And you're glad you have your Speedy-K, that works for patients that have trouble fixating, and only fires when the patient is in the right position.*

## **SPEEDY-K AUTOREFRACTOR/KERATOMETER**

ACCURATE AUTOREFRACTION DATA • Medical retro-illumination for lens observation and identification of media opacities. • FAST AND EASY MEASUREMENTS • Readings are initiated the instant that alignment and focus is achieved and measurements are terminated automatically when complete. • Measurements are taken in a fraction of a second. • Large, 5.5 inch, high resolution monitor for easy alignment, focusing, and data acquisition. • SPEEDY KERATOMETRY • Simultaneous refraction and keratometry measurements are taken in 0.35 seconds. • 4 peripheral measurements can be obtained within 0.45 seconds without any additional steps by the operator. • Lens holder included for curvature measurement of contact lenses.

*You never know where you'll be needed ...*

*Last week it was a class of 28 jumping kids.*

*Yesterday it was a geriatric ward.*

*Next month it could be the jungles of Borneo.*

*Yes, it's nice to be needed. Or do they just love me for my Retinomax?*

**RETINOMAX: PORTABLE AUTOREFRACTOR / KERATOMETER**

**RETINOMAX 3:** MOBILE AUTOREFRACTION • Share between offices or between rooms – the Retinomax is a full function hand-held autorefractor that can be used anywhere. • Measure patients in any position, in any place. • PERFECT FOR CHILDREN • The elimination of the chinrest makes the examination procedure easier, more relaxed and fun for children. • Includes melody function. • FAST AND EASY MEASUREMENTS • Begins readings the instant that alignment and focus is achieved and measurements are terminated automatically when complete. • Retro-illumination shows media opacities. • SIMULTANEOUS KERATOMETRY • Simultaneous refraction and keratometry measurements. • 4 peripheral measurements can be obtained with minimal change in measurement time and no extra steps.

*I used to play the waiting room game, shuffling patients from one room to another...*

*until finally I broke down. I bought a second projector, it was so affordable...*

*it made my day so much easier and my patients so much happier. I bought a third and it didn't hurt my pocketbook a bit.*

### **NP-3S CHART PROJECTOR**

Silent Operation • Fast, random access functionality • 5 Letters/Line with multi-20/20 lines • Various optotypes included • Advanced polarized slides included • Programmable
